

What we now know as the transformation of Apple Mountain actually began in 1994 when the resort was purchased. The addition of a quad chairlift for the ski slopes, new restaurant, new conference center along with the addition of an 18 hole golf course have been some of the major renovations.

Kathleen's Restaurant, which is part of Apple Mountain, offers favorites such as Chicken Kathleen, Broiled Michigan Whitefish, Barbeque Ribs, salads, soups and sandwiches. The restaurant is opened year round, as is Apple Mountain in general. It is opened Tuesday through Saturday with the dinner menu starting at 5:00 p.m.

During the winter months the slopes open daily at 10:00 a.m. Once the warm weather arrives and the snow is no longer here,

the golf course opens, hours do vary. The conference center is available seven days a week.

Apple Mountain employs 50-120 employees depending on the season.
