

BUILDERS INFORMATION

REVISED 4.14.22

BEFORE YOU BEGIN...

Certain guidelines must be followed before starting a new residential construction in Thomas Township. A building permit must be obtained at the Thomas Township Office **BEFORE** any work begins. Along with the building permit there are several other steps that need to be performed.

A **septic system permit** must be issued by the Saginaw County Health Department. You must tie into township sewer if available. You must connect to the Township water supply if it is available, otherwise if a well is to be present on the property, a **well permit** would also be issued by the Saginaw County Health Department.

A **driveway permit** needs to be issued by the Saginaw County Road Commission, or if a state highway is involved, you must contact the Michigan Department of Transportation. Address issuance is also obtained through the Saginaw County Road Commission.

Soil Erosion Permits are required by the Saginaw County Department of Public Works (Drain Office) if there is to be any earth change of one (1) acre or more, or if the new home is to be built within five hundred (500) feet of a lake, stream or county drain. All construction projects that are in a subdivision **must** have a soil and erosion permit.

If the property is located in the floodplain, a **EGLE Fill Permit** must be obtained from the Michigan Department of Environment, Great Lakes and Energy.
