Roof Installer Background Information Sheet

Contractors must turn this form into the Thomas Township Building Inspector with Application
Thomas Township, 249 N. Miller Road, Saginaw, MI 48609 Phone: 989-781-0150 Fax: 989-781-0290

Property Owners Name: _____ Date: _____

Phone Number of Owner: _____

Address of Project: _____

Parcel Number: _____

Explanation of work being performed (*please list all individual buildings*): _____

Contractors Name: _____

Contractor Phone Number: _____

Contractor Address: _____

Contractor State of Michigan License No: _____

A building permit is required prior to starting any roofing or re-roofing job. The contractor must provide the following when Applying:

- a. Copy of State of Michigan License
- b. Proof of workmen's comp insurance

The Building Inspector must be given a minimum of 24 hours prior notice of an inspection request. Building permits must be issued prior to requesting an inspection of the work being performed.

Because the Building Inspector cannot be onsite at all times during a roofing installation, the following may be required by the Inspector to insure proper installation of the roof:

- 1) Photos of the roof after shingle were removal. If shingling over existing shingles, photos of the roof prior to shingling over must be taken to show condition of existing shingles.
- 2) Photos of ice shield showing that it was installed a minimum of 24" measured from the exterior wall in the direction of the peak of the roof.
- 3) Photos of skylights (if installed) with all flashing installed prior to shingling.
- 4) Photos of flashing along siding, chimneys, vents, walls, or other surfaces that require flashing.
- 5) Photos of any drains, vents, or water channeling devices prior to covering.
- 6) Photos of air vents cut into the roof or existing vents. Photos must show clearly the size of unobstructed ventilation.

The Building Inspector is to be called prior to starting any roofing or re-roofing job in order to schedule an inspection as the roof is being stripped and flashing is being applied.

The Building Inspector will be looking for the contractor to have a good understanding as to the Michigan Building Code as it relates to roofing or re-roofing.

Contractors must understand how to do the following meeting the Michigan Building Code sections R703.8, R-903.2, R903.4 and R905:

- Flashing
- Skylights Flashing
- Chimneys / Vents Flashing
- How to install the shingles per manufactures specifications and approved code requirements

I hereby acknowledge that I have read this application; filled out in full the information required. I state that all of the information required is correct. I agree to reconstruct the roofing system according to the Michigan Building Code.
