

## Thomas Township Nature Preserve Current Map and Information

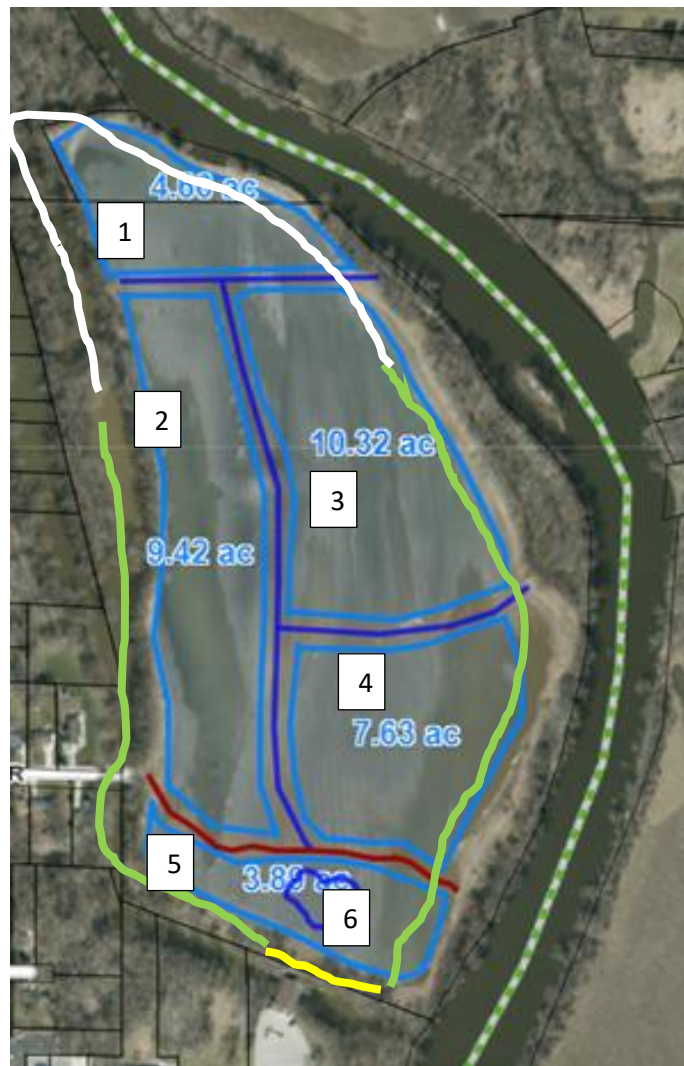

**The Trails are not complete!** There is a gravel trail from the building towards the Tittabawassee River. There are mowed trails on the east side from the end of the gravel trail to the observation deck and on the west side from the building to a breach in the berm. North of those areas, there is no trail yet.

**Be careful!** The mowed trail is uneven and has holes in places. Keep your eye out for ankle twisters!

**Avoid areas under construction!** There are multiple construction projects ready to happen this fall. Trails may be inaccessible at times.

### Future Planting Areas:

1. Flood Plain Forest
2. Shore Bird Grass Area
3. Sunflowers
4. Flood Plain Prairie
5. Children's Interactive Area/Pollinator Garden
6. Serenity Garden

### Trail Key:

**White**-No man's land

There is no set trail here!

**Green**-mowed trail

Watch for ankle twisters!

**Yellow**-gravel trail

Should be safe!

**Red and blue**-future trail locations
